The Quickstart Bundles will be delivered as a fully mounted, CE-compliant system and can be put into operation in just a few steps (plug & play). The Quickstart Bundles are delivered with a safety fence as standard. All bundles are optionally available with safety laser scanners (CE testing is required). The Quickstart Bundles are also available with both tools on request. Further information on the system components can be found in the respective data sheet from fruitcore robotics or from the manufacturer of the respective component.
